Review of operations

On 22 December 2023, the Company announced it had entered into a binding scheme implementation agreement with MS Journey Pty Ltd, a subsidiary of SoftBank Robotics Singapore Pte Ltd to acquire 100% of the issued capital of Millennium Services Group Limited by way of a scheme of arrangement (Scheme). The announcement also included an indicative timetable relating to the issuing of the Scheme Booklet, Scheme record and implementation dates.

Revenue for the six months ending 31 December 2023 increased by 15.1% to \$149.2 million (December 2022: \$129.6m). The increase in revenue was substantially due to:

- the Group winning \$17.5m (or 14.8%) of new long-term contracts and successfully renewing existing contracts at market competitive margins; and
- an increase of \$2.1m (or 18.9%) in higher margin adhoc and project revenue compared to the previous corresponding period.

Earnings before interest, tax, depreciation and amortisation (EBITDA) increased by \$2.7m or 122.7% to \$4.9m compared to an EBITDA of \$2.2m in the previous corresponding period. The \$2.7m EBITDA increase was due to gross profit increase of \$3.2m that offset a \$0.5m increase in overheads stemming from non-recurring costs including due diligence costs. Factors leading to the gross profit increase in the current period comprise:

- wins of new long-term contracts and successful renewals of existing contracts at market competitive margins;
- successful customer industry diversification; and
- the Group winning higher margin new security project work.

The Group's profit after income tax expense for the current period amounted to \$1.1m; which represents a \$1.8m (or 257.1%) improvement compared to the previous corresponding period's loss of \$0.7m. Performance in the prior corresponding period was impacted by the much higher than expected Fair Work National Wage increase in June 2022, macro-economic challenges such as high inflation, pressure on supply chains, low unemployment contributing to additional temporary labour costs around overtime and sick leave.

The Cleaning segment revenue increased by 11.2% over the previous corresponding period to \$119.8m from \$107.7m; with gross profit margin increasing from \$15.4m to \$17.3m. The gross profit margin percentage improved from 14.3% to 14.5%, due to contract wins at competitive margins and the successful implementation of labour cost management initiatives.

The Security segment revenue increased by 34.2% over the previous corresponding period to \$29.4m from \$21.9m, with gross profit margin increasing from \$2.7m to \$3.9m; the gross profit margin percentage improved from 12.2% to 13.3%. Wins in higher margin security projects assisted in the segment's growth in revenue and gross profit margin percentage.

The Group will continue its priority of winning new long-term contracts and renewing its existing major long-term contracts at market competitive margins, coupled with its focus on labour productivity, innovation and technology. The Board and Executives will also continue with the Group's diversification into new sectors.

There was material investment in working capital during the first half of the current financial year to expand the Company's customer base. As noted previously, total revenue for the first half of the current financial year increased by 15.1% compared to the previous corresponding period. Trade receivables increased by \$14.5m from \$15.1m as at 30 June 2023 to \$29.6m as at 31 December 2023; however, there was no deterioration in collection timelines. Trade receivables that were more than 90 days overdue reduced from \$0.5m as at 30 June 2023 to \$0.4m as at 31 December 2023, see note 7. There was no deterioration in payment timelines to suppliers during current half year. Trade and other payables as at 31 December 2023 included \$6.2m of wages paid on the 2 January 2024 and 3 January 2024 for the wage fortnight ending 31 December 2023.

The Company had access to \$11.7m of unused financing facilities as at 31 December 2023 (note: 11) to support its growth and diversification strategy.

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the consolidated entity during the financial period.

Matters subsequent to the end of the financial period

No matter or circumstance has arisen since 31 December 2023 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Likely developments and expected results of operations

Information on likely developments in the operations of the consolidated entity and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the consolidated entity.

Rounding of amounts

The Company is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

This report is made in accordance with a resolution of directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

Note 1. Significant accounting policies

Statement of compliance

The half year financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. This interim financial report is intended to provide users with an update on the latest annual financial statements of the Company and its controlled entities (referred to as "the Group"). As such, it does not contain information that represents relatively insignificant changes occurring during the half year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2023, together with any public announcements made during the following half year.

Basis of preparation

The consolidated financial statements have been prepared on the basis of historical cost. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The Company is a company of the kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument, dated 24 March 2016, and in accordance with that Corporations Instrument, amounts in the financial report are rounded off to the nearest thousand dollars, unless otherwise indicated.

The accounting policies and methods of computation adopted in the preparation of the half year financial report are consistent with those adopted and disclosed in the Company's 2023 annual financial report for the financial year ended 30 June 2023.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Going concern

The consolidated financial statements have been prepared on a going concern basis, which assumes the continuity of normal business activities and the settlement of liabilities in the normal course of business despite reporting an excess of current liabilities over current assets by \$20,215,000 as at 31 December 2023 (30 June 2023: \$20,287,000).

The excess of current liabilities over current assets is primarily due to annual leave entitlements of \$16,004,000 for the Group's 4,300 staff (excluding casual staff) which are not expected to be settled wholly within 12 months after the end of the reporting period but are shown entirely as a current liability. Historically, annual leave drawn is around 95% to 100% of each year's accrual and is paid as part of the Group's normal operating cycle.

In determining that the going concern basis is appropriate, the Directors have had regard to:

- The Group's profit after tax expense of \$1,102,000 for the period ended 31 December 2023;
- The Group's access to \$11,700,000 of unused financing facilities as at 31 December 2023 (see note 11);
- The Group's cash flow forecast, and budget for the next 12 months show positive operating cash flows.
- The Group's high level of contracted revenue into the future and understanding of its very high contract retention rates in recent years.

Should the business not be able to operate under its normal business activities, the Group may not be able to pursue its business objectives and will have difficulty continuing to operate as a going concern, including realising its assets and extinguishing its liabilities at the amounts shown in the financial statements.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Goodwill and other indefinite life intangible assets

The consolidated entity tests annually, or more frequently if events or changes in circumstances indicate impairment, whether goodwill and other indefinite life intangible assets have suffered any impairment. The recoverable amounts of cash-generating units have been determined based on the higher of their fair value less costs of disposal and their value-in-use. These calculations require the use of assumptions, including their fair values, estimated discount rates based on the current cost of capital and growth rates of the estimated future cash flows.

Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and tax losses only if the consolidated entity considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Note 3. Operating segments

Identification of reportable operating segments

The Group has identified its operating segments to be the two major areas of services provided to customers; Cleaning and Security.

Cleaning segment: represents the provision of comprehensive cleaning services to large retail shopping centres, commercial properties, government buildings and education facilities. Included within the segment are ancillary services such as maintenance and gardening.

Security segment: the Group's security services are primarily provided to clients in the large retail shopping centres and commercial property sectors to help ensure and maintain a safe and secure environment for their clients, tenants and customers.

Head Office is not an operating segment, it represents Group overheads, corporate head office, Group tax balances, financing, payroll and treasury functions. Government grants recognised and the application of those grants is disclosed under Head Office.

Revenue Categorisation

Revenue is generated by the Group and is categorised into the reportable segments disclosed below. Sales to external customers are recognised when the performance obligations are delivered over time. Once a contract has been entered into, the Group has an enforceable right to payment for work completed to date. Therefore, revenue is recognised over time. Additional billings are recognized when the performance obligations are delivered over time and are included within the sales to external customers.

These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments. The CODM reviews EBITDA (earnings before interest, tax, depreciation and amortisation). The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

Provision for public liability claims

Companies within the Group had at the end of the reporting period a number of public liability claims made against it in relation to incidents occurring at facilities cleaned by the Company. These claims are part of normal business activity for companies of this nature. The Group recognises a provision for public liability claims based on the best estimate of the expenditure required to settle the claims at the end of the reporting period. The estimates of the amounts required to settle claims are determined by the judgement of management of the Group, supplemented by experience of similar transactions. The evidence considered includes any additional evidence provided by events after the reporting period. As a practical measure, the Group utilises percentage of cleaning revenue method to account for public liability expense for a reporting period.

**INDEPENDENT AUDITOR'S REVIEW REPORT
TO THE MEMBERS OF MILLENNIUM SERVICES GROUP LIMITED****Report on the Half-Year Financial Report****Conclusion**

We have reviewed the accompanying half-year financial report of Millennium Services Group Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 31 December 2023, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity, the consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of material accounting policy information and other explanatory information and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- a. giving a true and fair view of the Group's financial position as at 31 December 2023 and of its performance for the half-year ended on that date; and
- b. complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis of Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
