#### **ACKNOWLEDGEMENT OF COUNTRY**

Millennium acknowledges the Aboriginal and Torres Strait Islander peoples as the first inhabitants and Traditional Owners and Custodians of Country throughout Australia. We pay respects to Elders past, present and future.

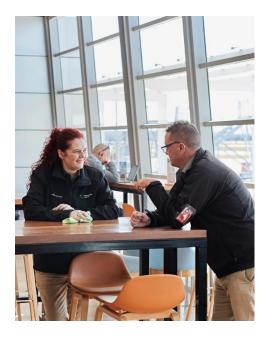

United: Our Reconciliation Journey. Lani Balzan, 2023

This is the Fourth Modern Slavery Statement published by Millennium Services Group for the purposes of reporting under the Australian Modern Slavery Act 2018 (Cth.).

The Statement outlines the ongoing actions taken by Millennium Services Group Pty Ltd during the calendar year of 01 January 2023 – 31 December 2023 in order to minimise the risk of modern slavery within our internal operations and the supply chain.

For completeness, where our approach to modern slavery within our business structure, internal operations, and supply chain have remained the same over the reporting period, we have not restated the detailed information as laid out in our previous Statements, but instead have summarized or included references where applicable to initiatives undertaken in the previous reporting period for historical context and added any notable progress achieved post the previous reporting period, and prior to publishing this Statement for accuracy and currency.

This statement was drafted and prepared in consultation with the stakeholders of all reporting entities for Millennium Services Group via the People & Risk Committee, chaired by the Chairperson of the Millennium Board and represents a consolidated statement for all group companies.

Details regarding the reporting entities and stakeholders consulted during the process are outlined in the subsequent sections.

Millennium Services Group has not consulted with the owners and management team of Codee Cleaning for the purpose of this Statement and does not make any representations about the supply chains, operations, or governance of this entity.

## 3. CHAIRMAN AND CEO MESSAGE

Throughout 2022/2023, Millennium continued to deliver excellent service to clients through our experienced and committed teams across Cleaning, Security, and Integrated Services. Whilst the operating environment has remained challenging with continued labour shortages in the first half of FY23 and inflationary cost pressures in the second half of FY23, Millennium has proven its resilience by growing, consolidating, and strengthening the business throughout the year.

It has been particularly pleasing to deliver on our commitments to the market concerning diversification and expansion into new services, industries and geographies, including our most recent expansion into the Northern Territory.

#### **Business Sustainability**

We are very conscious of community and customer expectations for responsible business practices and are committed to maintaining high standards of compliance, safety, and customer service. Our Board-led governance program ensures Millennium meets its legal, social, and ethical obligations.

Millennium recognises that in addition to operational excellence and economic performance, the progress and growth of the organisation requires the Company to pay attention and respond to Environmental, Social and Governance (ESG) factors. In FY23, Millennium developed an ESG snapshot document as a precursor to beginning a comprehensive corporate carbon accounting process in 2024 in anticipation of the expected regulated requirement for same by 2025.

As a people business, our team members are the lifeblood of the Company, and their safety and well-being is our priority. Millennium's lost time injury frequency rate continues to significantly outperform average industry rates. Our commitment to ensuring ethical treatment of employees begins with correct wage payments and extends well beyond this to aspects such as work-life balance and job security.

Millennium is committed to identifying and addressing risks and potential instances of Modern Slavery in our operations and supply chains. The Group prepares the Modern Slavery Statement annually capturing the identified risks and mitigation strategies together with activities it adopts in relation to prevention of Modern Slavery in its Internal Operations and Supply Chains. The Millennium Board via the People & Risk Committee oversees the progress on Modern Slavery Risk activities and during the reporting period no specific examples of Modern Slavery were identified in our operations or supply chains.

In March 2023, Reconciliation Australia endorsed Millennium's Innovate Reconciliation Action Plan, and significant progress has been made with implementing the Plan in the first half of the 2023 calendar year. Our partnership with Codee Cleaning Services, an indigenous owned cleaning company, continues to evolve as we pursue opportunities to create value together.

#### As a people business, our team members are the lifeblood of the Company and their safety and wellbeing is our first priority.

We are committed to acting ethically and with integrity in all our business dealings and relationships and on implementing and enforcing effective systems and controls to prevent modern slavery within our own business and in our supply chains. Millennium also understands the key to eradicating this complex issue is to set clear expectations for our people and suppliers, educate and train them on the impacts of Modern Slavery and its prevention and ultimately alert us to potential involvement in Modern Slavery and empower us to take steps to address it and to prevent such involvement in the future.

The following sections provide details on Millennium's structure, supply chain, internal operations, and risk management process in relation to prevention of Modern Slavery.

#### **Internal Structures**

• Millennium Board Structure

• Millennium– Operational & Functional Organisation Structure

#### Millennium Executive Management Team – Modern Slavery Risk Committee

#### Modern Slavery Risk Committee – Roles & Responsibilities

While the People & Risk Committee is the Governing body for the development of the Modern Slavery prevention framework along with developing and overseeing the internal controls there are key roles defined for each level of management within Millennium which are outlined as below.

#### • Executive Management Team

The members of the Executive Management Team (EMT) will ensure that Millenniums Modern Slavery policies and procedures are always followed.

This includes, however is not exclusive to the identification and monitoring of risk in the supply chain and ensuring our suppliers abide by Millennium's Modern Slavery policies and procedures. In addition, they will ensure all supplier contracts contain provisions against Modern Slavery.

The EMT member will also ensure that all employees within their sphere of accountability are trained in Millennium's policies and procedures as they relate to Modern Slavery and adhere to the policies and procedures.

The EMT members will ensure compliance with the annual Modern Slavery Statement reporting requirements and will establish a supportive, safe culture that supports our employees in disclosing information about possible Modern Slavery risks in our business and supply chain.

#### • Senior Management Team

The Senior Management Team (SMT) members will also ensure that Millennium's Modern Slavery prevention policies and procedures are always followed.

The team members have established a supportive, safe culture that encourages our employees to disclose information about possible Modern Slavery risks in our business and supply chain.

They will communicate with all stakeholders throughout the supply chain to ensure everyone complies with the Modem Slavery Act requirements.

The SMT will conduct regular audits on our suppliers and sub-contractors to ensure that they comply with the Modern Slavery Act

#### • Account Management Team

The Account Management Team (AMT) members will complete and remain up to date with the training requirements on Modern Slavery risks.

They will comply with the policies, procedures, and Code of Conduct in relation to Modern Slavery

They will also report any suspicions they may have about Modern Slavery risks within the business and supply chains.

#### Millennium Modern Slavery Risk Framework

#### • Governance

At the heart of Millennium's Modern Slavery Framework are its policies which are defined by the People & Risk Committee and endorsed by the Board. The Executive Management Team and the Modern Slavery Risk Committee are also responsible for the development, monitoring and review of the Employee Code of Conduct and the Supplier Code of Conduct as well.

#### Millennium Modern Slavery Framework Governance

In addition to the policies and the code of conduct the framework has four critical elements which support and aid Millennium and its team on delivering on the prevention of Modern Slavery risk commitment.

- Regulatory Compliance: Millennium holds labour hire licenses in Victoria for both Cleaning & Security services delivered to its clients. In addition, Millennium also holds a labor hire license in Queensland for delivering security services. In the Australian Capital Territory Millennium is also registered and maintains certification with the Secure Local Jobs Code for delivering cleaning services.
- Industry Specific Compliance: Millennium delivers its cleaning and security services in an ethical and socially responsible manner which includes commitment to compliance codes and standards of independent bodies such as the CAF in the cleaning sector and ASIAL as the peak Industry body in the security sector.
- Third Party (Independent) Audits: Millennium has an exhaustive third-party audit regime to demonstrate ethical and good wage compliance and workplace condition practices. This is verified through independent audits conducted by independent agencies such as Intertek, Workplace Wizard, Fair Supply, KPMG, E&Y, Quality Consulting Group and David Hicks & Associates to name a few. These audits vary in scope ranging from organization wide to client specific portfolios.
- Internal Controls: Millennium constantly strives to improve its internal controls to improve the prevention, monitoring and reporting of any Modern Slavery risks within its internal operations and supply chain. Millennium has developed a tailored training program for its Management Teams to educate and create awareness in relation to Modern Slavery Risks and the tools available within Millennium to identify, report and remedy any issues. In addition Millennium has a Whistle Blower Program for confidential reporting of any Modern Slavery, bullying, harassment or discrimination issues which is directly overseen by the Head of People & Culture, the CEO and the Board.

#### Licences, Certifications and Memberships

#### • Supply Chain

As part of Millennium's Approved Supplier Program, we engage suppliers who are shown to have strong governance frameworks and who adopt high ethical standards. Millennium's suppliers must at the minimum comply with the following requirements:

- Comply with all applicable laws and regulations including those relating to bribery, corruption and prohibited business practices.
- Conduct business in an ethical, equitable and professional manner.
- Ensure that their own supply chain and related third parties conduct their businesses in a fair, safe and ethical manner and complies with the Modern Slavery Act (2018).
- Ensure they meet their contractual obligations to us and their own suppliers.
- Disclose any actual or potential conflicts of interest that they or any related party may have in relation to the goods or services being supplied.
- Maintain a formal complaints management process for employees and members of the communities in which they operate or provide services.

In addition to the above, Millennium's Supplier Code of Conduct ensures that suppliers meet the requirements and code of conduct set out by Millennium in relation to each of the below categories:

- Anti Bribery & Corruption
   Privacy & Confidentiality
- Whistleblower Policy
   Risk Management
- Work Health & Safety
   Environmental Management
- Community standards
   Labor Policies, Human Rights & Non-Discrimination

A review of the Millennium Supply Chain which commenced late 2022 and ran through 2023 identified efficiencies and Millennium were able to rationalise and consolidate the supplier categories to better manage risk within the supply chain. Millennium were able to group suppliers in Approved & Preferred Supplier categories as below and on the basis of the classification of supplier triggered a customised level of due diligence process.

	Type of Service Provided	Frequency of Engagement of Supplier	Type of Supplier

# 5. RISK ASSESSMENT

#### Millennium approach to Modern Slavery Risk

As previously outlined in our Third Modern Slavery Statement, Millennium assesses its Modern Slavery Risk in line with the United Nations Guiding Principles through the following scenarios of Cause, Contribute and Linkages. Building on these principles Millennium has assessed its impact as outlined below.

According to the United Nations Guiding Principles on Modern Slavery an organisation can have Human Rights impact through the following:

Cause

Modern Slavery risk within Millenniums operations due to its geography size and cultural diversity and amplified due to the perception of the industry it operates.

#### Contribute

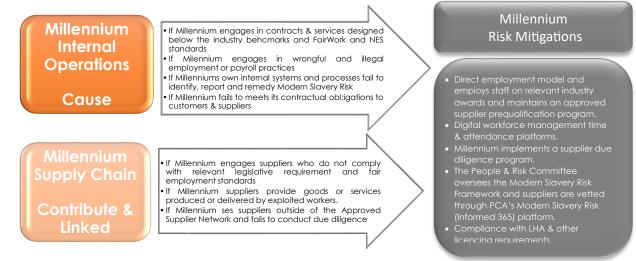

Millennium procures goods and cleaning consumables or services from Suppliers where risk of Modern Slavery exists within their supply chains and unknowing contributes to the risk.

#### Linked

Emphasis on a direct employment model minimises introduction of the Labor hire risks although in some instances Labor hire and sub-contractors are used which follows a strict approved supplier program.

Millennium adopts the UNGP continuum of Risk Management for the prevention of Modern Slavery Risk.

#### **Risk Scenarios**

#### Property Council of Australia - Millennium Services Group Assessment

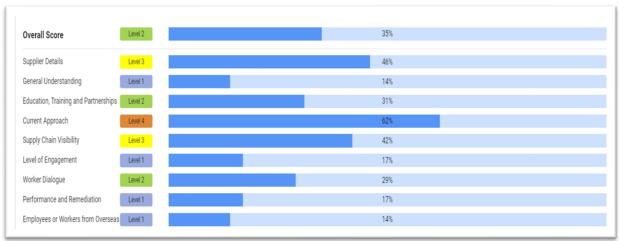

Initial analysis sourced from the Property Council of Australia Platform (Informed 365) is a key resource for analysing risk. Millennium Services Group completes an annual self-assessment and has been completing same since 2019 when Millennium first joined the platform. According to the assessment form completed for **2023 - 2024** 

Millennium Services Group has been assessed as a **Level 2 – Low Risk Supplier** which is a further reduction from last year of a Level 3 – Medium Risk.

Risk Level	Percentage	Classification
Level 1	0-20%	Very Low
Level 2	21-40%	Low
Level 3	41-60%	Medium
Level 4	61-80%	High
Level 5	80-100%	Very High

The **Risk Matrix** applied by the PCA is as below:

The Modern Slavery risk self-assessment is based on 9 individual criteria including but not limited to supplier details and engagement practices to governance education & training and process for mitigating and remedying modern slavery risk when identified.

Modern Slavery Risk Self-Assessment – 2023 – 2024 Scorecard

Based on the assessment, the highest level of Modern Slavery risk identified within Millennium's Operation and Supply Chain is attributed to: Current Approach. The risk with the current approach is at a Level 4 – High Risk attributed to potential risks within the Tier 2 and beyond of the Millenniums Supply Chain.

Millennium also recognises that the Cleaning and Security service industries remain susceptible to Modern Slavery risks due to the nature of the industries themselves and, as a result the inherent risk of Modern Slavery risk has been focussed through the last year on delivering awareness and training sessions for our employees which has resulted in a reduction in the Education, Training and Partnership risk from a Level 4 – High Risk to a Level 2 – Low Risk.

Millennium's governance practices and controls in relation to Modern Slavery risk through the overall management of the Modern Slavery Risk Framework through Millennium's Board of Directors, People & Risk Committee and Executive & Senior Management members is always evolving which is demonstrated through Millennium's performance.

## 6. RISK MITIGATION & ACTIONS

#### **Modern Slavery Training Content**

Modern Slavery is an issue that can affect everyone including us at Millennium Services. It can affect consumers, who unknowingly purchase goods or services that are a product of Modern Slavery, through to the supply chains from which these goods or services are manufactured and distributed. Millennium recognises that human rights concerns can arise not only in our own operations, but also from interactions with external parties – who we have relationships with, customer interactions, supply chain management and the communities we serve.

In order to improve awareness Millennium has developed a tailored course which outlines what Modern Slavery is and what is expected of the Management Teams at Millennium to help eradicate this practice. The course also explains the responsibilities of Millennium to ensure that we comply with the Modern Slavery legislation. The course was developed in late 2022 and rolled out during 2023 to all Executive, Senior and Account Management Team members including Support services staff who directly or indirectly have the potential to "Cause", "Contribute" or "Be Linked", with Modern Slavery risks. The course content includes information as noted below.

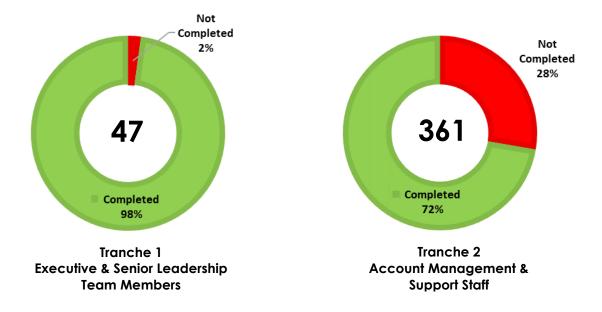

#### Millennium Modern Slavery Risk Course Outline

- What is Modern Slavery
- Millenniums Modern Slavery Context
- Types of Modern Slavery
- Millenniums Modern Slavery Policy Framework
- Modern Slavery Act 2018
- Modern Slavery Statement Requirements
- Millennium Modern Slavery Statement Details
- Reporting Entities
- Organisation Structure, Operations, Supply Chain
- Risks of Modern Slavery to Millennium
- Managing modern slavery risk in our supply chain
- Managing modern slavery risk in our operations
- Reviewing Internal Controls
- Consulting with Millennium stakeholders
- Millennium business responsibilities
- Millennium employee responsibilities

#### • Training Statistics

The Modern Slavery training course was delivered in two tranches. Tranche 1 included the Executive Leadership Team and Senior Management team members of the Millennium Team. This group completed the training during Q1 of 2023. Tranche 2 focussed on the Account Management Team and the Support staff who have people management responsibilities and the ability to impact Millennium's internal operations or supply chain. Tranche 2 was commenced during Q3 and Q4 of 2024.

#### Health & Wellbeing Calendar - 2023

The Millennium HSE & Wellbeing Team has developed a calendar as shown below is designed to provide information on the Monthly Safety toolbox / alerts along with strategies to support good health and wellbeing for our employees. With the below, we want to support our employees by making simple, relevant information easily accessible and building healthy workplaces.

#### Acknowledging the Cleaning & Security Services Teams at Millennium – 2023

#### • Thank You Cleaner Day

Cleaners provide an essential service, yet most of the people undertaking this important work are invisible to us. Every day, more than 4,700 skilled, hardworking cleaning staff are onsite at our client's premises ensuring that facilities are clean and safe for the community to enjoy. Whether it is a Commercial, Retail, Industrial, Aged Care or Recreational facility, cleaners work, day, night, and weekends to keep places and spaces clean, safe and hygienic, often outside of normal working hours.

Thank Your Cleaner Day has recently gained significant momentum across the world and has been recognised at the World Federation Building Services Congress (WFBSC) in Berlin.

Thank Your Cleaner Day recognises the hard work cleaners do and lets them know they are valued and appreciated. On 18<sup>th</sup> October 2023 Millennium celebrated Thank Your Cleaners Day with its cleaning workforce across multiple client sites. Pictures of the events are included below.

The Millennium Management Team in NZ also shared a video message to employees as part of the Thank Your Cleaner Day celebrations. A link to the video message is available as below:

#### • International Security Officers Day

Every day, 400+ Millennium security officers work to protect the public and assets and infrastructure. International Security Officers' Day, which takes place on the 24th of July every year, is an opportunity to recognise and thank those people who work behind the scenes to keep us safe each and every day.

The significance of the day on the 24th day of July is to recognise the 24/7 nature of security work undertaken by the Security Officers'. Millennium celebrates International Security Officers' Day each year and in 2023 a thank you video was produced. A link to the video is included below.

#### **Supplier Analysis**

Through this review of the total 525 suppliers within the Millennium supplier's database, Millennium has identified 236 active suppliers as providing some form of Goods or Consumables, Labor hire or Services to Millennium during this reporting period. Of the total suppliers, 135 suppliers are considered approved suppliers and 101 are considered as preferred suppliers. At the time of compiling the report The Compliance team have placed 9 suppliers on hold for not meeting Millennium's Supplier Code of Conduct and associated requirements and are working with these identified suppliers to ensure they comply with the requirements or are removed from the approved supplier program. An additional 11 suppliers have also been identified as inactive who haven't been engaged by Millennium during the last reporting period.

The goods and services procured from the various suppliers can be grouped into the following Industry Types as shown in the Pareto Analysis below.

In addition to the analysis by supplier spend Millennium also enrolled its suppliers onto the Property Council of Australia – Informed 365 platform and encouraged suppliers to complete the Modern Slavery Risk Assessments Questionnaire and, based on the responses provided by the Suppliers, the following categories have been identified as requiring further attention to prevent the risk of Modern Slavery.

Modern Slavery Risk Criteria requiring attention	<b>Risk Rating</b>
Current approach to modern slavery risk and reporting obligations including education and training of employees on modern slavery risk	High
Workers Dialogue to raise concerns in relation to Modern Slavery Risk	High
Evaluation of performance and remediation of Modern Slavery Risk	High
Suppliers' own policies and procedures to tackle Modern Slavery Risk	High

The insights gained from the data received to date on the Property Council of Australia Informed 365 platform have further allowed Millennium to review and enhance our framework to mitigate suppliers' modern slavery risk in our supply chain against the following key risk aspects.

- Geography of Suppliers
- Industry / Service Type
- Awareness of Modern Slavery risks

Geography of Suppliers	
Risk Criteria	Risk Rating
Tier 1 Suppliers – 100% of suppliers are based in low-risk countries	Low
Tier 2 & 3 Suppliers – Approximately 50% of the supply chain includes Tier 2	Medium
& Tier 3 Suppliers	
Action & Control	
As part of our continuous improvement program, Millennium undertook a procurement	

As part of our continuous improvement program, Millennium undertook a procurement consolidation project in FY23 resulting in a 50% supplier reduction.

Industry / Service Type		
Risk Criteria	Risk Rating	
Labor Hire / Onsite Service Providers - All are based and located in Australia or New Zealand and are predominantly used for events management or roster gap coverage. The modern slavery risks associated with these activities are recognised to be increased given third-party involvement	Medium	
<b>Apparel Uniform Supplier</b> - The apparel industry is ranked # 3 by Global Slavery Index and while Millennium Tier 1 supplier is based in Australia further verification and validation of the Tier 2 supplier is required	High	
Action & Control		
Millennium engage the services of registered providers who comply with company and individual state licensing requirements. Millennium is investigating introducing a supplier diligence program beyond Tier 1 suppliers.		

Modern Slavery Awareness	
Risk Criteria	Risk Rating
Approximately 40% of the approved suppliers have yet to commit to assessing their own Supply Chain Modern Slavery risks	Medium
Action & Control	
Communication and training from Millennium and Informed 365 will continue, to drive this number lower and improve quality and depth of risk assessment throughout our supply chain	

## 7. ACTIONS EFFECTIVNESS

#### Independent Wage Compliance Audits

In late 2022 Millennium engaged Intertek Assurance Solutions to undertake a Wage Pay-check Assessment across its major retail client portfolio for both cleaning and security services. The assessment project timeline concluded in Q1 – 2023 with Intertek providing its findings to the business and Executive Team.

The scope of the audit included:

- 1. Employment Contracts
  - a. Signed Employment Agreement
  - b. Employee Collective Agreement
  - c. Valid Working Visa
- 2. Working Hours
  - a. Excessive Working Hours
  - b. Working Hours in line with Visa requirements
- 3. Wages and Benefits
  - a. Timesheets and Payslip Comparison
  - b. Remuneration and entitlements
  - c. Review of Remittance Advice
  - d. Superannuation Contributions
  - e. Leave Entitlements
- 4. Management System
  - a. Evidence of GST registration
  - b. Up-to-date workers compensation Insurance
  - c. Long Service Payment Scheme registration

An extract of the Executive Summary Report noting the auditors' findings from this audit is included below.

It was identified within the report that for a short period and against a limited group, overpayment of superannuation did occur. The overpayments are due to Superannuation being paid against the full payment received, including overtime and allowances. However, under the rules of Super, only base rates and allowances should have been included, and some allowances are exempt. In discussions with Millennium this has been identified and remedied in latter pay periods.

The document reviewed did not show any gross underpayments for staff. All staff were paid at or better than the award. Variations in the payments were due to early rounding by the Award vs a calculation of the award loading and penalty rates being rounded at the end. In most cases, the value was low and is reflected in the report data. This data will be made available to Intertek for record keeping.

#### Stockland Ethical Sourcing Assessment

In early 2023 Stockland along with Ernst & Young engaged with Millennium Services Group for an Ethical Sourcing Assessment in relation to the Cleaning & Security services provided by Millennium across the Stockland portfolio. The objective of this supplier assessment was to further investigate the responses provided by Millennium from the submitted Self-Assessment Questionnaire. Specifically, Stockland and EY undertook a deep dive into the queries identified through the analysis of Millennium responses to the questionnaire. This assessment therefore provides an opportunity for Millennium to provide further context and detail on the responses and enable Stockland and EY's Modern Slavery committee to assess the evidence supporting the questionnaire responses.

Scope of the Audit:	Cleaning & Security Services including Supply Chain
	(All of Stockland Portfolio)
